## The UN Agenda 2030

<b>1 NO POVERTY</b> 	<b>2 ZERO HUNGER</b> 	<b>3 GOOD HEALTH AND WELL-BEING</b> 	<b>4 QUALITY EDUCATION</b> 	<b>5 GENDER EQUALITY</b> 
<b>6 CLEAN WATER AND SANITATION</b> 	<b>7 AFFORDABLE AND CLEAN ENERGY</b> 	<b>8 DECENT WORK AND ECONOMIC GROWTH</b> 	<b>9 INDUSTRY, INNOVATION AND INFRASTRUCTURE</b> 	<b>10 REDUCED INEQUALITIES</b> 
<b>11 SUSTAINABLE CITIES AND COMMUNITIES</b> 	 <p align="center"><b>THE GLOBAL GOALS</b> For Sustainable Development</p>			<b>12 RESPONSIBLE CONSUMPTION AND PRODUCTION</b> 
<b>13 CLIMATE ACTION</b> 	<b>14 LIFE BELOW WATER</b> 	<b>15 LIFE ON LAND</b> 	<b>16 PEACE AND JUSTICE STRONG INSTITUTIONS</b> 	<b>17 PARTNERSHIPS FOR THE GOALS</b> 

In the year 2015, **leaders from 193 countries of the world came together to face the future.**

What they saw was daunting. Hunger. Poverty. Drought. Wars. Plagues. Not just in some faraway place, but in their own cities, towns, and villages.

They knew things didn't have to be this way. They knew we had **enough food to feed the world**, but that it wasn't getting shared. They knew there were **medicines for HIV and other diseases**, but they cost a lot. They knew that **earthquakes and floods** were inevitable, but that the **high death tolls** were not.

They also knew that billions of people worldwide shared their hope for a better future.

Therefore, leaders from these countries created a plan called the **Sustainable Development Goals (SDGs)**. This set of 17 goals imagines **a future just 15 years off that would be...**

**...rid of poverty and hunger, and safe from the worst effects of climate change.**

**It is an ambitious plan**

**But there's ample evidence that we can succeed. Furthermore...**

The **Sustainable Development Goals** are a call for action by all countries – poor, rich and middle-income – to promote prosperity while protecting the planet.

They recognize that **ending poverty** must go hand-in-hand with strategies that build economic growth and address a range of **social needs** including **education, health, social protection, and job opportunities**, while tackling **climate change** and **environmental protection**.

They encompass every aspect of human and planetary wellbeing; a universal call to action to **end poverty**, to **protect Earth** and ensure all people enjoy **peace** and **prosperity**.

**The 17 Sustainable Development Goals are:**

## Universal

- They capture problems **common to all countries**;
- They concern **all dimensions of human life**;
- They apply to **every nation** and to **every sector of society**.

## Integrated

- They are all **inter-connected**. We cannot aim to achieve just one Goal. **We must achieve them all**.

The Sustainable Development Goals are **a first in human history**. They are a **global compact to**

**create a future where nobody is left behind.**

**They also come with a deadline: 2030**

The goals were followed, in 2015, by the **Paris Climate Agreement**— another ground breaking achievement where 196 countries plus the European Union pledged to keep the planet's temperature at "well below" 2C higher than when the industrial revolution began.

Member states pledged to mobilize financing, enhance national implementation and strengthen institutions to achieve the sustainable development objectives of the 2030 Agenda, and leave no one behind.

However, as we enter a new decade it is abundantly clear that much more action is needed. Very few countries have made the changes to keep the promises they have made. And we need everybody on board.

**Ten years to save the world**

UN Secretary-General António Guterres welcomed the progress being made by governments beginning to integrate the SDGs into their national policies, but he said deadly conflicts, the climate crisis, gender-based violence and persistent and rising inequality were holding everybody back.

World leaders called for a decade of action to deliver the SDGs by 2030 and announced more than 100 ‘accelerated actions’—voluntary undertakings to speed up progress.

As a human family **we’ve never done anything like this before**. It’s uncharted territory: we are going to have to overhaul the way we live and do business, produce energy and food, dispense justice, and empower the most disadvantaged.

But **we have no choice but to step forward**; we can already, almost daily, see the cost of inaction played out in real time; widespread global climate and political protests; entire forests ablaze; unprecedented levels of desertification; ancient cities flooding; millions of people forced to migrate.

The SDGs represent our only hope of addressing these complex and intertwined issues.

## There is hard work ahead

### Let’s get to work

#### Now I know ...

- 😊 Why the Agenda 2030 was made.
- 😊 Who signed it.
- 😊 The aims of the 17 goals.
- 😊 In which sense the goals are universal.
- 😊 In which sense the goals are integrated.
- 😊 I can and must get to work.

## Get involved

### APP FEATURES

Learn about the 17 SDGs, get news on your favourite goals, find out what you can do to achieve them, create your own events and invite others to join you in sustainable actions and events.

The SDGs in Action app features:

- Detailed information about each of the 17 goals, including targets, explanatory videos, key facts and figures, and suggestions on how you can help achieve them take action.
- The latest sustainable development news from around the world. See how innovation is helping to achieve the goals, interact with global citizens around the world and see the latest news.
- The ability to choose what goals are important to you and receive notifications about that goal.
- Access to the World's Largest Lesson explaining each of the Sustainable Development Goals.
- Find actions and events near you that you can join to support the goals.

The ability to create Actions you're planning in your area, and invite others to join.
